# ABOUT THE COMPANY

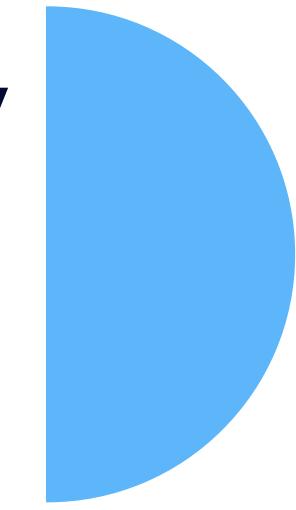

Ganpati Coroplast specialises in manufacturing high-quality carton packaging solutions with a vision to serve a variety of industries nationwide. With a focus on innovation, sustainability, and customer satisfaction, we deliver customizable packaging tailored to meet our clients' needs. Our commitment to excellence, eco-friendly practices, and exceptional service sets us apart as a trusted partner in packaging solutions.

---

Discover the difference with Ganpati Coroplast where innovation, sustainability and customer satisfaction converge to redefine packaging excellence.

# Company Story

India's growing demand for consumer products has led to an influx of companies in Bihar. However, finding reliable local suppliers and manufacturers remains a challenge. Our story starts here. Our group has made a huge impact in packaging industry with our manual and fully-automatic corrugated box units in Rajasthan and Bihar for the last 25 years.

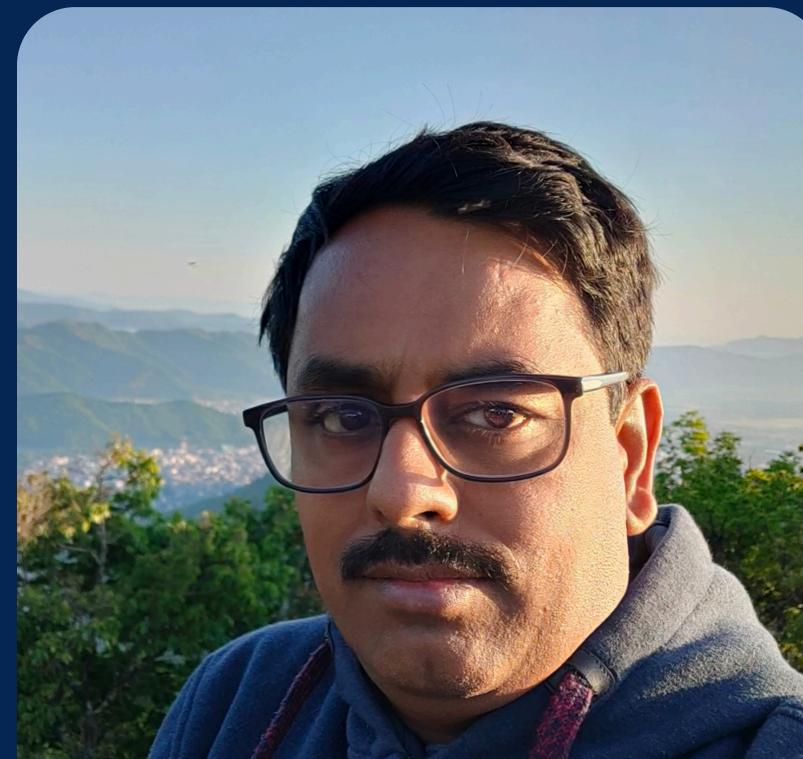

Given the advent of new manufacturing industries in Bihar and to support our government's initiative "Make in India", there is a perfect opportunity for us to capitalize on this situation and offer you the best service. To contribute to this era of change, Ganpati Coroplast Pvt. Ltd., a fully automated, high-tech corrugated box unit, was established in the heart of Bihar—Patna. Our aim is to leverage our experience to support the growth of these emerging industries.

# Mission

At Ganpati Coroplast, we are driven by a clear set of goals that guide our every endeavor and shape our vision for the future. These goals encapsulate our commitment to excellence, innovation, sustainability, and customer satisfaction.

## Excellence in Quality:

We strive for nothing short of excellence in every aspect of our operations. From material selection to manufacturing processes, we are dedicated to maintaining the highest standards of quality to ensure that our products meet and exceed the expectations of our clients.

## Continuous Innovation:

Innovation is at the heart of everything we do. We are committed to staying ahead of industry trends, embracing new technologies, and exploring innovative solutions to enhance our products, processes, and services, ensuring that we remain at the forefront of the packaging industry.

## Sustainability:

Environmental responsibility is a core pillar of our business philosophy. We are committed to reducing our environmental footprint by implementing sustainable practices throughout our supply chain, from sourcing eco-friendly materials to minimizing waste and energy consumption in our manufacturing processes.

FORKLIFT	TOYOTA	3 TON

# Quality Policy

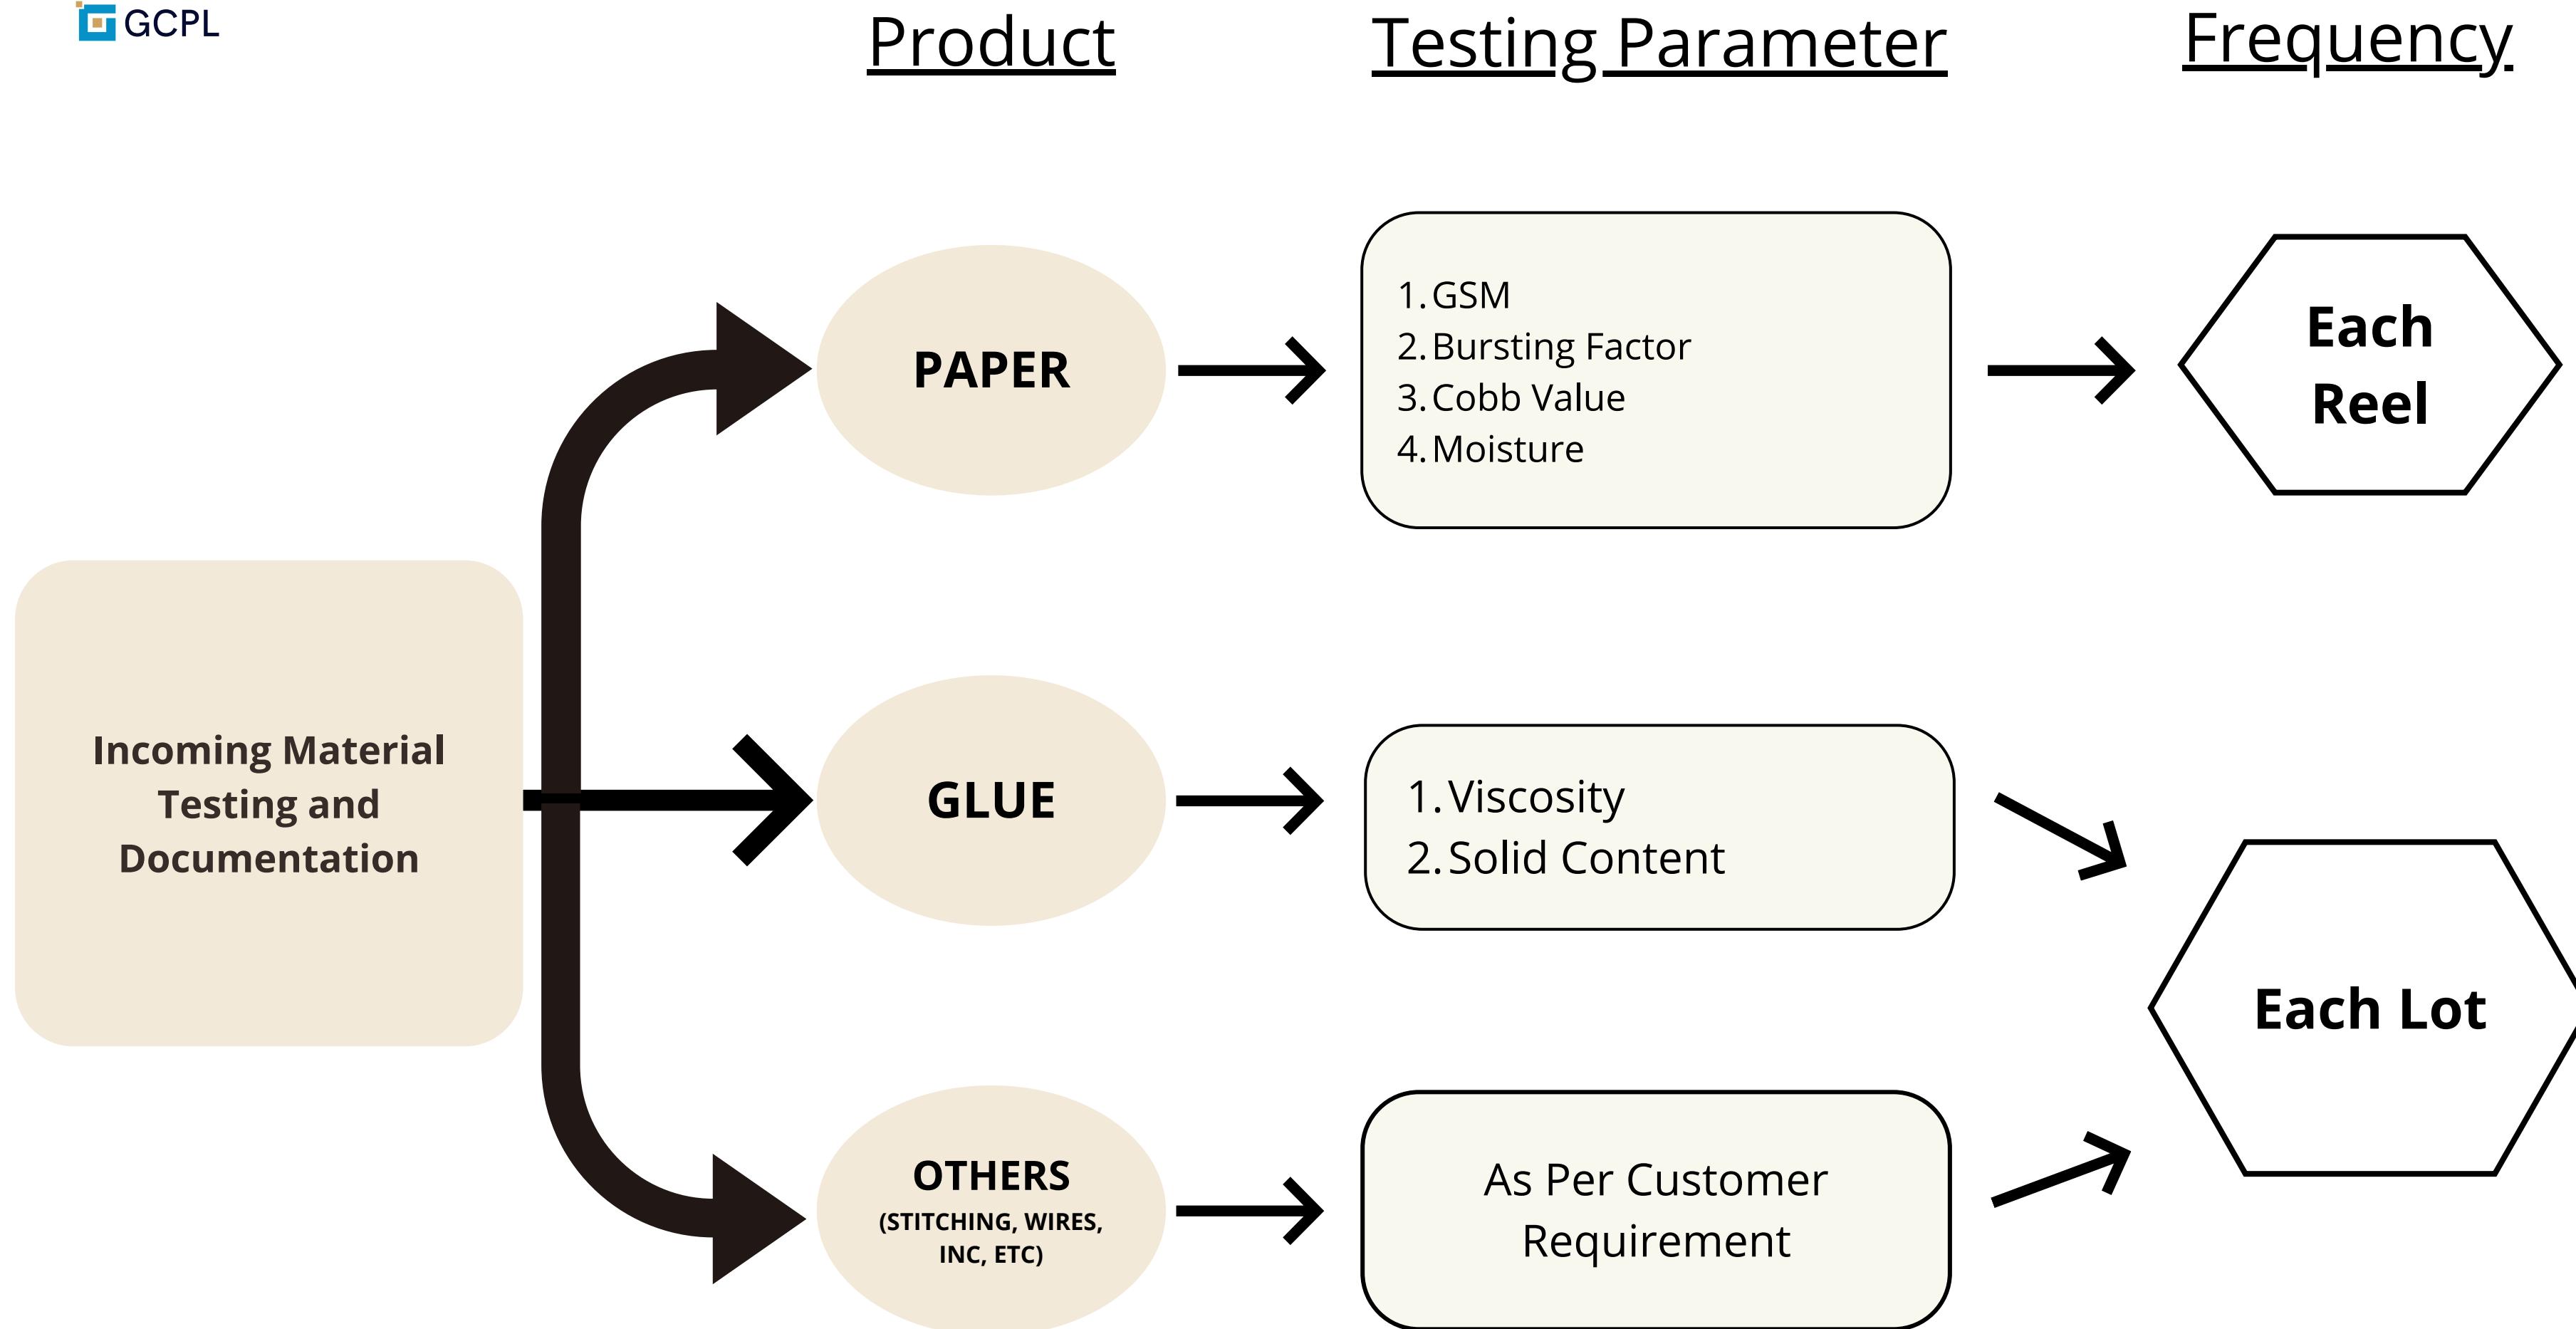

**“Quality is never an accident. It is always the result of intelligent effort”- John Ruskin**

---

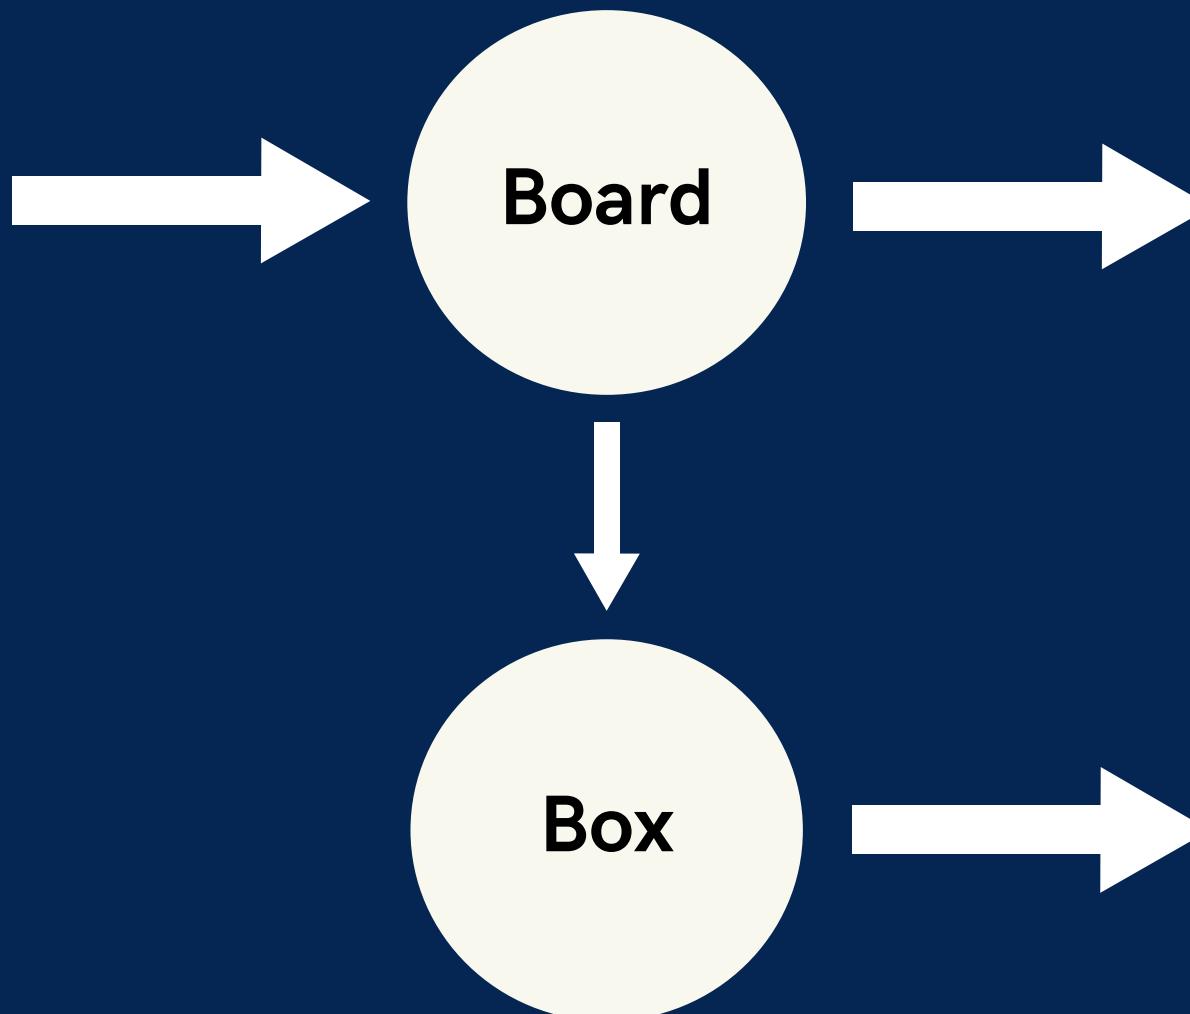

Reduction and optimization of product cost is the most sought-after element for both supplier and customer but not at the expense of quality. We follow very stringent quality norms right from incoming raw material, work in process to finished product without any hesitation to scrap material not conforming to standards. We do not just believe but make it happen by learning at every step from our mistakes.

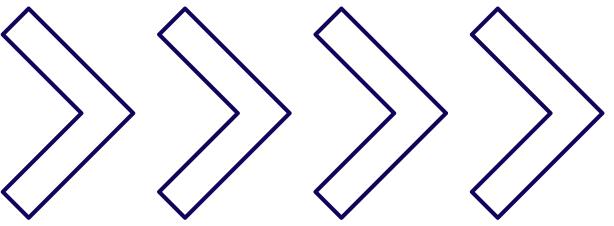

## QUALITY CHECK EQUIPMENT
